## Product Structure:

## How to pair with the ABT510B

1. Hold down the 'Bluetooth Button' for 5 seconds to power it on. If you would like to turn it off again, hold down the button for 5 seconds. (If connected to speakers, it will make a sound)
2. To pair with a Bluetooth compatible device (such as a Bluetooth enabled mobile device), hold down the 'Bluetooth Button' while the device is off until a blue indicator light starts flashing. This means it's in pairing mode. (If connected to speakers, you will also hear a sound)
3. Once in pairing mode, use your Bluetooth enabled device to search for the name 'ABT510B' under Bluetooth settings. If your device asks for it, please input password '0000'.
4. You will know if it paired successfully if the blue light flashes twice every 10 seconds. (It will also make a sound)

## How to use the ABT510B

- When paired you can play music using this device. Shortly press the 'Bluetooth Button' to 'Play' or 'Pause' music.
- When receiving an incoming call, press the 'Bluetooth Button' to answer it.  
If you would like to decline the call, hold down the button for 2 seconds.
- If you press the 'Bluetooth Button' twice, it will re-dial the last call.
- If you would like to disconnect the paired device with the ABT510B, hold down the button for 3 seconds. (If connected to speakers, it will make a sound)
- If you would like to connect it to a sound system, please plug the 3.5mm audio output plug to vehicle or sound equipment,

and then pair the devices within 10 meters.

### **Notes about ABT510B**

- The ABT510B will automatically re-connect with the Bluetooth device when powered on.
- In case it has failed to pair after 10 minutes, the device will automatically change to Auto Standby Mode.
- If it has failed to pair, please try turning the ABT510B off and try again. If it still fails to pair, please restart your smartphone or Bluetooth enabled device.
- When a device is connected to the ABT510B and there is some sort of problem such as signal interference or it is out of range and disconnects, the ABT510B continue to try to re-connect within 3 minutes. If the re-connection is over 3 minutes but within 15 minutes, press the 'Bluetooth Button' to awake the device and it will connect and work normally.

### **Power saving mode**

When the ABT510B is not connected to any Bluetooth device, it will automatically power off after 15 minutes.

## **Music Mode**

- Connect the 3.5mm audio output plug to either a vehicle or sound equipment.
- Pair the devices, press the 'Bluetooth Button' to 'Play' and 'Pause' music.

## **Phone Mode**

- Connect the 3.5mm audio output plug to either a vehicle or sound equipment.
- While on a call using the ABT510B, it will pick up voice through the mic input by up to 1 meter.

## **Charging Mode**

- To charge the ABT510B, use the provided micro USB cable via a computer or a power supply with a 5V out.
- While charging the red light will be lit. It will turn off when it is fully charged.

## **Specification**
