

# APWMVLOK Manual

## FEATURES

Note: Dash Mount can be used as an alternative to the Vent Mount. Loosen ball joint collar. Pull ball joint out of socket. Place collar over dash mount ball. Push dash mount ball back into socket. Tighten collar.

## INSTRUCTIONS

1 Place Vent shield over grip arms. Twist clockwise to tighten grip arms, twist anti-clockwise to loosen

2 Arrow faces upwards when mounting to charger. Twist clockwise to loosen 3 Axis ball joint, twist anti-clockwise to tighten

3 Insert Micro USB end of the cable into the base of the wireless charger and USB Type-A end in to a USB charger

4 Slide onto base of wireless charger

5 The mounting plate sticks to the back of the phone directly. Remove protective adhesive cover to adhere to phone. Then the phone's cover covers the plate.

6 The mounting plate can also be fitted inside the cover of the phone. Remove protective adhesive cover to adhere to phone cover. To maximise charging efficiency please ensure the plate is centred with the phone

7 Once the mounting plate is fitted on the back of the phone or inside phone cover, align the centre of your phone with the circle on the holder to charge. LED charge indicator will turn red while charging. If indicator flashes red, reposition phone for better connection.

## APWMVLOK Manual
