

HOW TO RESET TO FACTORY SETTINGS

Have the DBH50R in the OFF position.

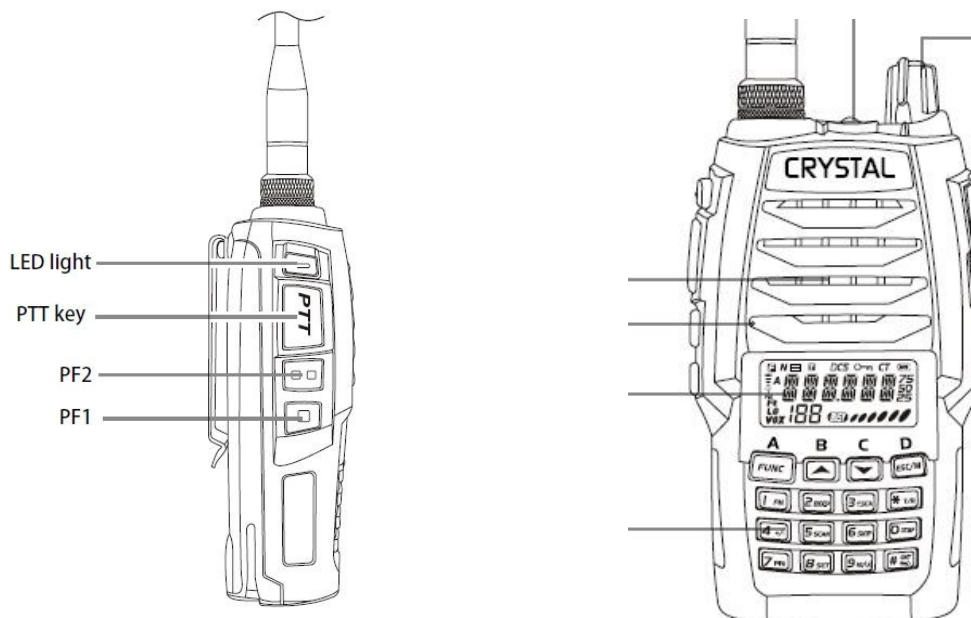

Press the PF1 button and keep it pressed and turn the power ON, after 3-4 seconds release the PF1 button.

A word will appear on the screen that says TOT this means you are in the background menu.

Press the arrow up or down key under the letter B/C. Press until you get to the word that says RESET on page 16 on the screen.

Press FUNC button key under the letter that says A on your key pad, the word will appear OFF on the screen, then press the arrow up or the arrow down button until the word FACT appears on the screen.

Press button ENT on the very bottom right side of the key pad, this will rest to factory settings.

ON/OFF FM RADIO

When unit is ON press FUNC key, a F icon will appear on the top left corner of the screen then press 1FM button use the up or down arrow to scan for a radio station. To switch back to CB mode repeat above operation. If you have problems with switching back to CB mode turn OFF and ON the unit and repeat steps above.
