

GRV96MKT Firmware Instructions

**** Please confirm BEFORE carrying out the firmware update that the “MIRROR” option is missing from the mirror settings & the device is currently on version 20220709_V0.1.****

Once confirmed the MIRROR option is indeed missing please follow these instructions.

Please download the following file [GRV96MKT FW 20220820/](#)

1. Copy the file SD_CarDV.bin onto a formatted SD card.
2. With the mirror switched OFF please insert the SD card.
3. Power ON the mirror, then wait for the firmware to load.
4. When the firmware has updated, the mirror will shut down.
5. Please now remove the SD card.
6. Power up the mirror once again and confirm the “MIRROR” option is located in the settings.
