2. Hotspot Connection

- Please remember your mobile hotspot SSID and password
 (Settings-> Connectivity-> Mobile Hotspot & Tethering-> Mobile Hotspot)

< Settings **Personal Hotspot**

Personal Hotspot on your iPhone can provide Internet access to other devices signed into your iCloud account without requiring you to enter the password.

Allow Others to Join

Wi-Fi Password   123456789 >

Allow other users or devices not signed into iCloud to look for your shared network "leest" when you are in Personal Hotspot settings or when you turn it on in Control Center.
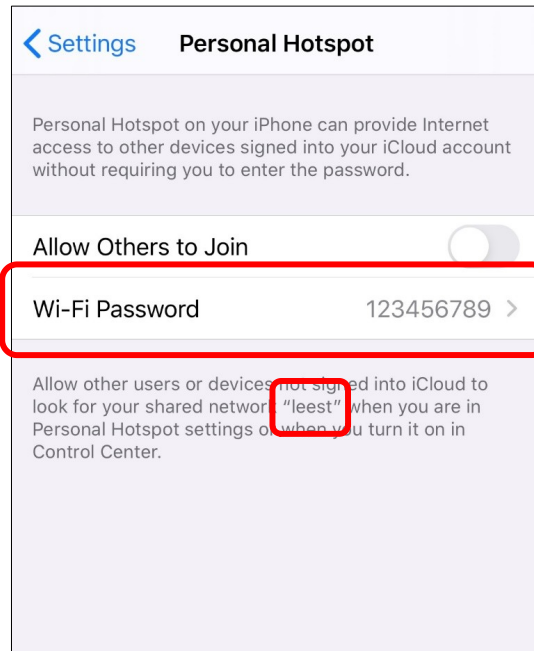

For example)

SSID : leest
Password : 123456789

How to connect with App via Wi-Fi and Hotspot (iOS)

2. Hotspot Connection

- With your Wi-Fi connected, Select "Connect with Another Device"
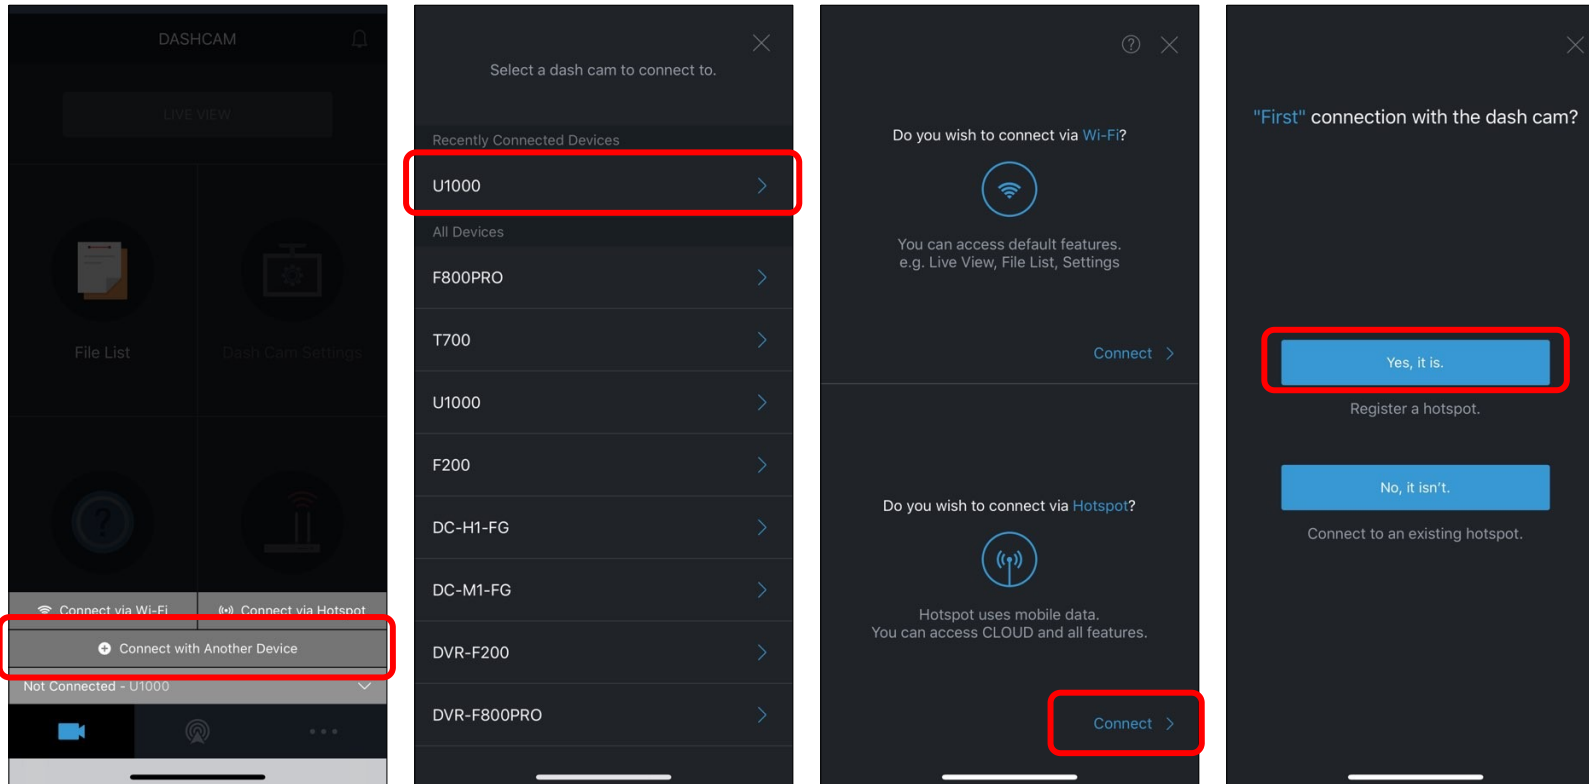

How to connect with App via Wi-Fi and Hotspot (iOS)

2. Hotspot Connection

- Enter SSID and Password -> Turn On Hotspot -> **Stay on the screen until the connection is complete**

(Wait until the product is connected to your smartphone. You will hear the product say, "Connected to the Internet." when the product is connected to your smartphone.)

Activate Wi-Fi

Press the Wi-Fi button on the dash cam. Tap "Next" when you hear the following message.

Connect to a Wi-Fi network starting with "Thinkware" from your smartphone.

Next >

Connect to the Dash Cam Wi-Fi

1. Go to iPhone Settings > Wi-Fi.

2. Connect to a Wi-Fi network whose name starts with "Thinkware."

3. Return to this app once the connection is complete.

Add Hotspot to Dash Cam

Enter the correct hotspot information of your smartphone.

leest

123456789

The above information can be checked in Settings > Hotspot on your mobile.

The connection will be made whenever your smartphone is near the dash cam and the hotspot is on.

Input Complete

Connect to Mobile Hotspot

1. Go to iPhone Settings > Personal Hotspot.

2. Turn on the personal hotspot and wait a moment. The dash cam is connecting to the hotspot you added.

[Caution] Exiting the setup screen may result in a failed connection with the dash cam.

3. Return to this app once the connection is complete.
